Returning for their second season will be William McGree from Long Beach, who will cover the Truckee-Squaw Valley area and Tom Pendergast of Truckee, assigned to the Briggs and Conley highway construction and Prosser dam projects.

Newcomers to the district include: Howard Little, a transfer from the Stanislaus National Forest assigned to the Kings Beach area; Donner Lake Patrolman Orvin Haugen, just recently retired from Stead Air Force Base in Reno; Robert Holt, former forest service employe from the Los Padres National Forest in southern California, who is assigned to the Martis Valley unit; and Don-

The new owners and members of the Shadow Valley Country Club are cooperating in promoting the course.

DISHWASHER BREAKS WINDOWS AT CAFE

Raymond Everett Koon, Baldwin Park, who had been employed as a dishwasher at the California Cafe after being released from jail, was returned to that institution the same day after he broke three big plate glass windows in the cafe.

James Ritchie, operator of the restaurant, said there was no apparent reason for the tirade except the man had been drinking and became abusive. He was arrested by Deputies Preston Patnoude and Emery Lander.

QUEEN JUDGING WILL TAKE PLACE JUNE 2

The date for the preliminary judging for the Miss Donner Lake contestants will take place June 2 instead of June 9, according to Mrs. Charles O'Bear. Applications to enter the contest may be obtained at the Truckee Public Utility office before May 28, because of the change of the previous plans.

One Man Killed As Trucks Wreck On Donner Grade

Two truck accidents on Donner grade during the past week resulted in the death of one man and injuries to two others.

Edward Schubert, 24, Red Deer, Alberta, Canada, was killed last Thursday afternoon at 2 o'clock when a huge truck and trailer driven by Konrad E. Stromberg, 48, also of Red Deer lost their brakes coming down the grade and crashed one tenth of a mile from the bottom.

The truck and trailer were loaded with fresh produce and were en route to Canada.

Fortunately Tom Dolley was in the vicinity, heard the crash and rushed to the scene with a fire truck from the Donner Lake Volunteer Department and extinguished an incipient blaze. Patrolman Martin Sturcke made the investigation for the California Highway Patrol.

The injured man was taken to the Tahoe Forest Hospital and Schubert was removed to the Truckee Colonial Mortuary.

Tanker Over

In the second accident, a P.I.E. tank truck and trailer overturned near the 6,000-foot level at 6:30 a. m. Sunday spilling 5,000 gallons of high test gasoline and injuring the driver, William Lue Walrath, 40, Sacramento.

Walrath leaped from the vehicle after the brakes failed and did not suffer major injuries.

The forest service truck was called to standby until danger of the fire from the spilling gasoline was eliminated and a relief truck came from Reno to salvage much of the cargo.

Group Working To Improve Facilities

Meeting Monday at the offices of the division of beaches and parks at Squaw Valley, a group of civic leaders, including Richard Higgins, president, and Reg Smart of the Truckee Donner Chamber of Commerce and Fred Schultz of the Lake Tahoe-Sierra Chamber, discussed methods of counteracting unfavorable publicity regarding the valley.

It was decided to seek audience with Governor Edmund G. Brown, Senator Ron Cameron and Assemblyman Paul J. Lunardi and determine what can be done to brighten up the valley's appearance through landscaping and other projects.

One of the first things needed, it was pointed out, is a sign on Highway 89 directing visitors to the valley. It is also proposed to remodel the present theater building to be used as a convention center and close the open side of the Blyth arena for winter comfort.

Other meetings of similar nature are being planned, Higgins said.

"We want to develop something of which we can be proud and of which the state can be proud," Higgins said.

INJURED MAN HELPS SELF TO COMFORTS

Manning S. MacQuarrie, 56, who told officers he fell from a freight train and broke his ankle, was apprehended in the Snowflake Restaurant at Soda Springs Monday by the proprietor, Robert Jang, but because of circumstance, he was not charged.

According to Sergeant Roy Waters, MacQuarrie broke open a door to the supply room with a rock, entered and cooked himself a steak, had some ice cream for dessert and turned on the gas heaters to get warm.

After hearing of the man's accident, Jang declined to prosecute and MacQuarrie was taken to the Nevada County Hospital for treatment for his broken ankle.

The children summoned the owner of the park, Milton Nickelson, who called the Tahoe City fire department and ambulance to rush the injured to the Tahoe Forest Hospital. Stephens was believed killed instantly and his wife was fatally hurt and expired a short time later despite three blood relays by Patrolman Gautsche of the highway patrol from the blood bank at Reno.

DIVOT-DIGGERS

By BETTY KIELHOFER

Bob Moore called a special meeting of the Country Club directors last Thursday evening to meet at the club house with the new owners of the course. Jackie Jensen was there to answer all the questions everyone had been apprehensive about, and when we were through, the whole group seemed happy.

Jensen stated the country club would be most welcome to use the club house for its future meetings as always. They will also cooperate on our club tournaments to the fullest and even offered us a lower daily rate on greens fees when we have out-of-town guest tournaments.

He told us yearly fees for families would be $100 per year and this would include the entire family, even those children over 18. Dues for a single membership will be set at $75 and there will be a $2.50 daily rate for those wishing to play after 5 p. m. or $4 for the entire day.

The minimum wage for children is nine years old. They will be asked to play with their parents until it becomes obvious they are old enough to play alone. This is a good rule as it is imperative to know something about the game as well as golf etiquette.

Bob Moore felt it would be a good idea to set up the next general club meeting at a date convenient for the new owners so they could be present to meet everybody. The meeting place hasn't been established as yet but it will have a large seating capacity as the meeting will be open to the public and we'd like to see everyone there who is interested in the successful operation of the course. The date has been tentatively set for June 11, so set that aside on your calendar and we'll let you know where and what time in a later issue.

John Firpo asked me to be certain I mentioned that the Truckee-Tahoe Mountaineers will play their first home game against (Lovelock) next Sunday beginning at 2 p. m. They feel they have a good team this year and hope to work up lots of enthusiasm among the locals so go on out there Sunday and 'holler' up a storm four our team.

I'd still like to see another diamond built in the area. With baseball coming in strong again, we've got little leaguers, pony leaguers and the men's town team falling all over each other. We need a diamond mainly for the Mountaineers so they can have the food and beer concession and this isn't possible on school property . . . as I remember in the past, the income from this was enough to keep the ball team going . . . I think we should have a giant benefit game this summer for this purpose. We could have the 'Old Timers' play against the present team. Let's see now—for the 'old timers,' we could ask Jackie Jensen (ahem) and also Marv Christensen, the new assistant at the Bank of Amercia. I hear he played with the Oakland Acorns and was 'farmed out' the last year Jackie was there. Then we'd get Karl, my husband, Frank Giovannoni, Jim Mosconi and a few others. I wouldn't want to bet on who would win (might not be fair).

I will bet that we could raise a lot of money, earmarked for a new diamond. Get your thinking cap on and help us come up with some ideas on land that would make a good site . . . see you next week.

FUGAZI WRITE-IN FOR TAHOE JUDGESHIP

KINGS BEACH—Robert Fugazi, who was appointed judge of the Tahoe Judicial District Court to fill the vacancy caused by the death of Harry Charrison a year ago this month, will be a writein candidate for election at the June 5 primary.

Fugazi was unable to file nomination papers because of a snow storm so must run as a writein.

The candidate was born in Stockton and after graduation from the University of California in 1943, he served two years in the South Pacific with the amphibious forces. After his discharge, he attended Hastings College of Law and received his degree in 1950. He was recalled to the service and spent 18 months in Korea as a legal officer and holds the rank of lieutenant commander in the naval reserve.

The family, including his wife and three children, Kent, Bobby and Lynann, came to Tahoe in June, 1959 for the benefit of their son's health. He resigned his position as deputy district attorney of Contra Costa County where he had served six years.

He is a director of the Lake Tahoe-Sierra Chamber of Commerce, trustee of the Elks Lodge and a trustee of the Rotary Club of North Lake Tahoe.

"The public is entitled to have its cases heard by one trained in the field of law," Fugazi declared.

This Is Your Life—Captain Elisha Stevens. (And t'is not known really whether the spelling is "Stevens" or "Stephens").

Born in South Carolina, settled in New Orleans, and then migrated to California in 1844. Born to command, and his conquests made peaceably. Slim built—loncknecked—narrow headed with a high crown. Erect in stature and elastic in movement.

Stevens was 41 years of age when he left Council Bluffs, Nebraska (then a military post). And the date of his departure was May 18—the day we wrote this "This Is Your Life."

I quote now from an article that appeared in the San Francisco Post —December 26, 1883. "He traveled by way of Fort Hall, Oregon, in charge of a party of men, women and children, over 100 in number, and conducted all safely through the toils and dangers of an unknown wilderness. Two children were born in the company on route. He made the passage of the mountains by his own study of the country, and broke or cut out his own pathway. At one point at the foot of a mountain range, he found such great obstacles that he was much troubled what to do fearing he would fail to work his way over, he prayed earnestly that and it was given to him in a vision to peek right on up a ravine, where he found only one point naturally impassable for his teams and wagons; but all hands went to work with energy, and threw down stones and made a rough passageway. This cost several days of severe labor, but it was successful and all made their way over.

He set out from Council Bluffs with 26 wagons and teams fully equipped and provisioned. At Fort Laramie, on the Platte River, he took in eight more wagons) making a total of 34) all drawn by oxteams. They proceeded over a route hitherto unknown to white men, with mountains and alkali springs and streams to overcome and fully 1,500 miles in length. The party separated at Fort Hall, near Walla Walla. One party went down the river to Portland and the other into the Sacramento Valley. With the latter was Captain Stevens." . . . They arrived in Sacramento at Sutters Post on the 8th of November 1844.

* * *

And from the Sacramento Union, September 15, 1864: "A lady in this city says the San Francisco Call has furnished us with the following brief narrative. It is not however, by any means clear that Captain Stehphens Company was the first which crossed the Plains to the country; although he preceded Fremont but as the account is interesting we give it:

And I am not quoting—but am picking out the interesting highlights in this narrative: this article states that but 50 were in the party —and that their arrival in Sacramento was in December.

It states that an accurate account of the trip was taken by Dr. Townsend and Moses Schallenberger. And now I quote, "Captain Stephens had but little "book education" though he was a man of sound sense and great experience. He appointed these men to act as secretaries, with the intention of publishing a book, but the whole of the writings were unfortunately destroyed, and Fremont has therefore the credit of being the "Pathfinder"."

Seems like Stevens named rivers, springs, etc., on his way across the plains. Shortly thereafter—in fact in 1845 — Fremont made his trek in the very tracks of Captain Stevens and renamed the various rivers (which he professes to have discovered)—under the pilotage of Kit Carson.

At my good right arm is a book entitled "The Opening of the California Trail — (Stewart-Shallenberger)" which deals exclusively with the Stevens Story.

At my good left hand is American Heritage, Vol. 6, No. 4 and on Page 61 is another article by Stewart entitled "The Smart Ones Got Through" which hits the nut with the hammer when he says "No one bothered to record much about the non dramatic Stevens party, and we should have scarcely any details if it had not been for Moses Shallenberger a lad of 17 at the time of the actual events, who, 40 years later dictated to his school marm daughter his memories of the journey. On the other hand, the story of the Donner Party is possibly the best documented incident of any in the early history of the West. . . . Of course, this is still the everyday tale. Drive efficently about your business, and no one ever hears of you. Scatter broken glass and blood over the highway, and a picture of the twisted wreck makes the front page." —and there you have it.

Same with the good and trusty liners that churn their way across the seas. But give us a Lusitania or a Titanic—and we have the names to remember.

And if you want to carry your searches a little further—dig in good Bancroft's "Chronicles of the Builders" — Vol. III and start at about page 15. Wish I had time to go into all of this for you—and I find myself quite interested in the Stevens Party (in spite of my thing). But the above, I believe are your best scources—if you are interested. And this is for all of you who have said "Whose Stevens?"

* * *

But we do have a Donner which has been epitomized, which has made famous our particular area —which will never die name wise and I'm still for Donner Freeway."

* * *

And now down to dots and dashes, notes and flashes, gossip and gashes.

And that Way Cation column that you just read is to be augmented. Seattle Fair Wise—we hear that the Bradley Boards of Sugar Bowl went to the fair following the siren song "Hi-Ho-Come to the Fair." And we longingly waved goodbye to the Zorich's Soda Springs as they heard the song. Max Williams flew back to Pennsylvania for Mothers Day. Our Peg Travis took off for Long Beach to drink in some sun. The Aros—Betty, Edvi and the kids—went California coastwise to visit mothers on Mother's Day. The Vincent Lyddane family returns from San Francisco way where they enjoyed a couple of weeks. Our Pop (Couillard) also takes off for San Francisco to gaze at a couple of baseball games.

Then we have those who have already started to come to the Donner area—inspite of white stuff —for their vacation. 'Member Elinor Anderson? Our cross country girl champ of the Donner Trail Memorial Race? Right this minute I look out my window and see Ellie on cross country skis, and in shorts —ski boots and skis (e'en tho' cross country skis) look a little incongruous; (as though we have forgotten the winter season already).

And Helen Reynolds of Soda Springs wades in the residue of the recent storm toward her Soda Springs cabin to look things over and get ready for her summer delight.

And back up in the woods we find out that the Paul Merricks have hidden away to recover from their teaching sprees in Africa. We wanted to gossip a bit with them to give you a better picture than this vignette—but howsomever—we'll have to wait for a bit because we are going to take a Way Cation too. That last article and this one did the trick. Can't stand it another minute. And we don't know where we're going. Wonderful?

And we guess the Dave Youngs of Yuba Sands Lodge (David and Roma) added a little fuel to the flame when they returned from Mexico—all nice and brownish and healthish looking.

Besides we know that vacation time must be upon us because Roy and Jessie Thompson — e'en tho' they had to use a snow cat to get in—have again gone into the back country and their beloved Cedars to get ready for the influx of summerites at that interesting place.

Our Frank and Kay Zoll are going to be feted at the Community Club next Monday evening (which we cannot "fete" with our bunch on account of our Way Cation) because they are going "Ranching." Yep — got themselves a goodly hunk of land (and we know because we've seen it) down Highway 49 way out of Auburn. Said beautiful, rolling hills with streams and greenery and lushness—belonged to the Forsters (June and Lee of Soda Springs Ski Shop). We mightily miss the Zolls—but we certainly hope that they will be happy in their new Eden.

* * *

And we have saved the very best for the last. As we were reading and contemplating Elisha Stevens —the material which we had

gathered was firmly taken from our hands by Fran Dragoo of Big Bend Ranger Station. We were astounded by her knowledge of the Stevens Party and mentally kicked our selves that we had made a trip to Sacramento to "get the dope" from the state library—because Fran knows more about the old situation than, I believe, does Stewart himself. Now it seems that Hitchcock (a principal in the Stevens Party) — whom historians have failed to dub with a front name because they couldn't find it any place—but who Fran calls "Issac" most familiarly is Howard's (Mr. Dragoo's) forebear. Says Fran "Issac Hitchcock was the father of Mrs. Patterson (who was a gal on that ride of Stevens) and Mrs. Patterson had two girls and one boy named Issac Patterson—and Issac Patterson was Howard Dragoo's grandfather."

So Mrs. Fran Dragoo has made it a business of getting down to the roots of the matter—and has several mementos of that famous "first." Incidentally—whilst Fran crams and scans for other possible connections — Howard seems quite bored with it all.

"Lots of people have ancestors that came across the plains," says Howard with a shrug — but we take out hat off to Fran who is bound and determined to ferret out every little item that will ultimately make a complete whole. And she knows what she's talking about, too.

So goodbye now—and you'll be hearing from us in a couple of weeks. And in the meantime if this strike situation breaks up—and the "rockets red glare" and the cakes fall in the ovens from the blasting — proves that "Construction Marches On"—don't let 'em name Stevens Pass — Stevens Pass until I get home, will you?

Trustingly Fran

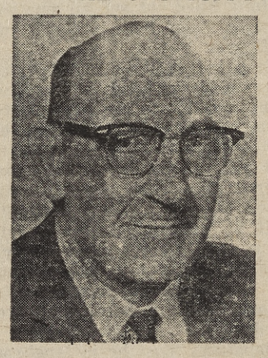
FOR THE SIX YEARS I HAVE SERVED YOU IN THE CAPACITY OF NEVADA COUNTY



ASSESSOR — It has been my object to equalize your assessments. Some properties were completely out of line when I took office —some assessed too low, others too high. In making adjustments, naturally many benefitted — others not, but there can be no question of the fairness or equality of the methods used or the results obtained in giving equal consideration to all

I ask that you consider all the facts and return to office a man qualified and capable of continuing to provide the county and your district with fair and unbiased property assessments.

For Better Electrical Service

Your Directors of the Truckee Public Utility District are faced with a developing problem — that of extending and improving the electric department and at the same time maintain the present low rates.

Costs of providing service in the District have multiplied during recent years and the need for expansion in a fast-growing community are apparent.

In order to maintain present rates, it becomes necessary to discontinue cash discounts on bills, a policy which will go into effect July 1, 1962. This will not offset the rising costs of service, but will go a long way in eliminating losses by the District, and at the same time assist materially in improving and expanding electric services.

It is the desire of your Directors that the discontinuance of the discout be a temporary measure and that it can be resumed as soon as feasible.

CHILDREN TO ENJOY LOCAL FISHING TRIP

Thirty five or forty under-privileged children will have enjoyment added to their lives by a fishing trip sponsored by the San Francisco Junior Chamber of Commerce during the weekend of June 30, July 1, according to a letter received from L. E. Warner to W. F. Keller.

They will use the facilities of the Alpineer Ski Lodge at Donner Summit and come to Donner Lake to try their luck with rod and reel. Everything from the lodging, food, transportation and other fishing trip essentials are being donated by interested business concerns for the very worthy project.

The present plan is to arrive at the lodge about noon of June 30 and after a wonderful time in the mountains, the children and their sponsors will return to the city tired but happy, Sunday afternoon.

DONNER DOINGS

By VIRGINIA O'BEAR

If sunflowers are an indication that summer is here, we can get out summer clothes again with hopes of warm weather. The snowflowers are popping up out of the ground now just like asparagus with the exception of the beautiful watermelon color red. They have pretty bells on them, too. In case you are new here, the flowers are protected by the laws of the state and there is a heavy fine if you destroy or pick them. They are rare and look so much more beautiful growing in the forest.

* * *

If you are doubtful about the arrival of summer, there are other signs which lead me to believe it won't be long now. Marsh Finch is back working at Donlac after an enjoyable winter at 29 Palms. Fran has her coffee shop going full blast at the same place with all kinds of good food. Across the way, "Rusty" Randol has her college girls lined up for the summer again to take care of the hungry ones at Donner Lake Lodge. Doris Davis is back at the Trading Post after spending the winter at Sebastopol. Everyone else at the west end is getting ready for the summer season and maybe next week I can give you a run down on what's going on at the east end.

* * *

Last week the Auxiliary of the Donner Lake Volunteer Fire Department postponed the regular meeting until this Thursday evening because of the high school fashion show and the church potluck supper, scheduled the same evening. The dinner meeting will start at 7:30, May 24, at Donlac with hostesses Nancy Brodie, Jerie Bonano and Laura Horman. It is hoped that all members and their friends can attend this meeting because of the delicious charcoal broiled steak that Fran will serve us. (Hope it doesn't snow).

* * *

It won't be long now before school will be out for the summer with our little darlings home under our feet. Wouldn't it be wonderful to be young again without a care in the world and just have to worry whether or not your parents will let you roam the forest, go fishing, boating and swimming, go on picnics or horseback riding? Some children think they have it rough but if they only knew I think they would appreciate their home life more. That is all part of growing up and we realize all of these things when we are older. But oh, for the good old days of going barefooted and going to school. They are happy memories, anyway.

* * *

Lights are on at night across the lake. People are back for the summer and some have been busy over there during the day cutting wood for their fireplaces. It is so cheerful to see lights across the lake at night and to see smoke coming from the chimneys. I'll have to go over that way and welcome them home.

* * *

Lots of things have been going on at Donner, but I got the word. "Don't put that in your column," they say, so all those little juicy items will not appear but all of us know . . . that's life. I'm going fishing.

To Pla-Vada—
P. F. Nicholls of Berkeley is arriving at Soda Springs, summer headquarters while attending to Pla-Vada property.

Swim Program To Be Started In June

The American Red Cross water safety swimming program, sponsored by the Sierra Nevada Chapter, for the North Lake Tahoe area, embracing Crystal Bay, Kings Beach, Tahoe City, Truckee and Donner Lake, will resume its annual swimming program in June.

Kay Felte, chairman of the Crystal Bay-Kings Beach area, is enlisting the interest and aid of mothers in that school area for instructors, leaders and swimmers aides. Interest and participation by parents is a very vital part of the swimming program. The official dates for the Kings Beach area will be announced in the very near future.

The Truckee-Donner Lake program, chairmanned by Sue Stone, with vice chairman, Pat Vind, is scheduled for June 18 through June 29. Classes will be held at the Olympic Village and Squaw Valley Lodge pools. Transportation to the classes will be by bus. Schedules will be announced by Chairman Stone next week.

Classes for the Kings Beach and Tahoe City children, will begin June 4 and run through June 15. Classes for these two areas will convene directly after school with transportation the responsibility of the parents.

Mable Neilson, chairman and Eunice Henrickson of Tahoe City have announced the following pools in Tahoe City will be available for classes in the Tahoe City area, Lake of the Sky Motel, Travel Lodge, Edgewater and Town and Country. Beginners and intermediate pupils will use the in town pools while advanced swimmers will be in classes at Town and Country Lodge. Sign up sheets and permit slips have been issued through the classes at the Tahoe City grammar school.

A training-refresher review program for all instructors in the North Lake Tahoe area will be held at Stollery's Town and Country Lodge from 9 a. m. to 12 noon, on May 28 and May 29. A special session for leaders, organizers and swimmers' aides will be conducted on May 31 from 9 a. m. until 12 noon at Town and Country Lodge. Those participating in these programs are invited to bring a bag lunch, coffee will be served at the pool, with buzz sessions and swimming after lunch. All who are interested in any phase of the swimming program are invited to attend all three sessions. Mike Beasley, student at the University of Nevada will conduct the review-training program.

Maggie Stollery, North Lake Tahoe area chairman, urges all who have children who are interested in the program to sign the permission slips and return them to their respective schools immediately. Only children who are permanent residents in the area are eligible to participate in the swimming program.

STOCKTON FIRM IS LOW BIDDER ON JOB

The state division of highways Wednesday received a low bid of $33,333 for the construction of a sand storage building to be located at the highway maintenance station on State Sign Route 89 in Placer County about one-half mile west of the Tahoe City wye.

Nomelline Construction Co. of Stockton was lowest of six bidders, according to officials at the Marysville district office.

The 40x80-foot concrete and metal structure will prevent the freezing of sand used during the winter to reduce highway ice conditions in the North Tahoe area. Previously sand was stored in the open and its freezing made it difficult to work.

THERE'S A JET!

SO WHAT? PRETTY SOON THEY'LL BE OUTA STYLE.

BY THE TIME WE GO TO COLLEGE, THEY'LL BE SHOOTING US THERE IN A ROCKET.

OR MAYBE EVEN A SPACE SHIP. I'D LIKE TO GO TO SCHOOL ON THE MOON.

MOON COLLEGE EXPRESS

I'M NOT IN THAT MUCH OF A HURRY TO GET TO ANY KIND OF SCHOOL.

ME NEITHER – BUT IT WOULD BE A QUICK WAY TO GET OUT AND DITCH SCHOOL IF WE WANTED TO.

MY PA SAYS THINGS ARE MOVING SO FAST THAT BEFORE WE KNOW IT TOMORROW WILL BE YESTERDAY.

THAT I'D LIKE! THEN WE WOULDN'T HAVE TO GO TO SCHOOL TOMORROW!

HOW COME?
